

Hearing Voices Groups & Recovery Research

We are two Masters of Occupational Therapy students at UBC hoping to gain a better understanding of the diversity of individuals who participate in hearing voices group, and the varying levels of recovery the groups support.

if you...

- Are willing to complete a questionnaire about recovery
- Are 19 years of age or older
- A voice hearer
- Have attended two group sessions within the last six months
- Are able to understand English or French

then...

- You may want to participate in our study
- The study involves filling out a self-report questionnaire about your perception of recovery and one brief demographics form

if you want to know more or participate...

- Contact: Jennifer Querques or Aja Hann:
jennifer.querques@alumni.ubc.ca
- Or Michael Lee (Principal Investigator):
michael.lee@ubc.ca

Or, complete the survey online: <https://survey.ubc.ca/s/HVG2016/>

Study will be running from January 2016 – June 2016
